

## Website descriptions and URLs for Viewtalk and WinkBall

[www.viewtalk.org](http://www.viewtalk.org) : a video messaging service tailored specifically for the deaf community.

This innovative and pioneering site allows the deaf to communicate online by the use of video messaging and live video chat. It will allow members of the deaf community to communicate more effectively by recording and sending private messages to each other.

[www.winkball.com](http://www.winkball.com) : video personal video communication service

WinkBall.com is a free, web-based, personal video communication service, which allows anyone to record, send and share videos with friends and family - privately. Users can also create and post content to video blogs and walls for private and public viewing.

[www.viewtalk.co.uk](http://www.viewtalk.co.uk) : Sign Language Video Services from Viewtalk

Viewtalk.co.uk provides sign language video services to businesses. Its technologies and services allow businesses to communicate with D/deaf and hearing impaired consumers in the UK, many of whom prefer to use British Sign Language (BSL), by producing video using BSL.

[www.getvideocontent.com](http://www.getvideocontent.com) : A video content creation and interviewing service.

By combining our unique video platform and network of over 300 video reporters we can create video for all aspects of your business. You can use this network to do anything from vox pop based market research to creating a record of your event to videoing your customers. Our proprietary "video wall" technology provides an easy way to embed video content in your website.

<http://www.winkball.com/unrwaboys> : UNRWA Videos and list of boys schools

<http://www.winkball.com/unrwagirls>: UNRWA Videos and list of girls schools

WinkBall Digital yearbook project. The project was launched in the UNRWA schools on the 20th anniversary of the UN ratification of the Convention of the Rights of the Child.

Each student in the hundreds UNRWA schools recorded a 30-second message. The words of the students form the basis of a living network for the future, to be added to each year.
